JBV-1 Docking Station and DA-24 Adapter

The JBV-1 Docking Station has been designed for calibration and software update use. The DA-24 Docking Station Adapter makes signal connections to the phone. JBV-1 and DA-24 are used as one unit.

JBV-1 main electric functions include:

- adjustable VBATT calibration voltage, current measurement limit voltage "VCHAR", current measurement calibration current "ICHAR"

- adjustable ADC calibration voltage via BSI signal

- BTEMP and BSI calibration resistor

- signals from FBUS to the phone via parallel jig

- control via FBUS or USB

- Flash OK/FAIL indication

In calibration mode JBV-1 is powered by external power supply 11-16V DC. In flashing power for the phone can be taken from FPS-8 or external power supply 11-16V DC.

DA-24 main electric functions are:

- phone recognizing from BTEMP

- filters of FBUS signals

- SIM CARD reader

MJ-29 Module Jig

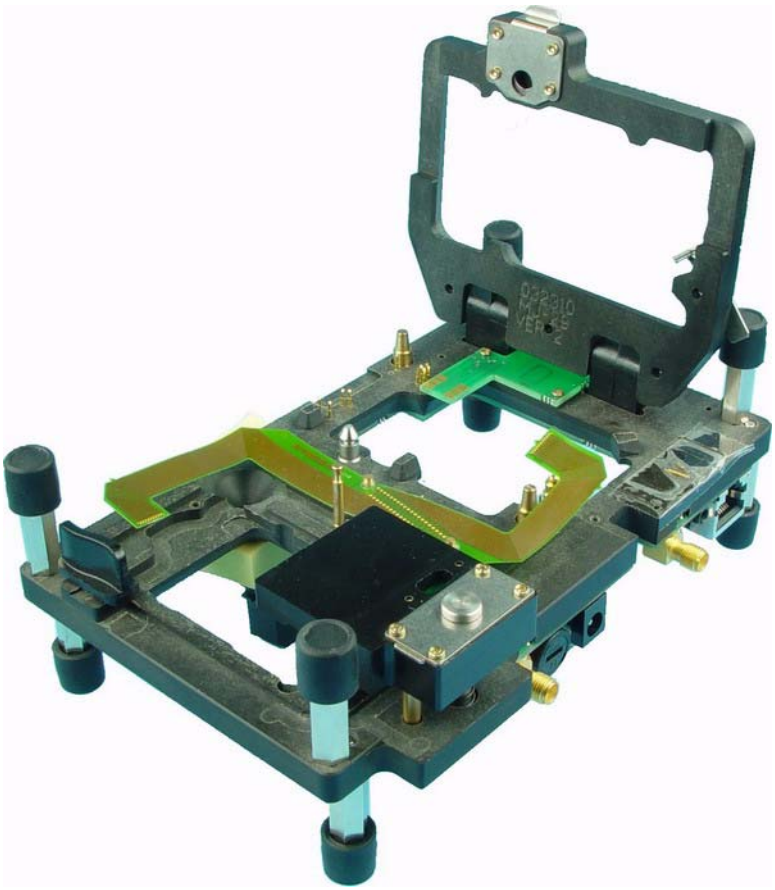
Module Test Jig MJ-29 is designed for regional Central Services for TB4 module testing. It can be used for flashing and RF-, battery-, system-, radio- and SIM reader testing.

Product Code

MJ-29 Module Test Jig:0770707

Spare pin code:077xxxx

Figure 3: View of MJ-29



Note: The nominal supply voltage for MJ-29 is +4.2 V.

The supply voltage must not exceed +5.0 V (min 3V).

(MJ-29 includes overvoltage, overcurrent and reversed polarity protection).

FPS-8 Flash Prommer (Sales Pack)

The Flash Prommer FPS-8 is used with e.g. DA-24 and JBV-1. Power is supplied to FPS-8 from the Universal Power Supply.

The sales pack includes:

- FPS-8 Flash Prommer0750123
- FPS-8 Activation Sheet9359289
- Universal Power Supply0680032
- AXS-4 Service Cable (D9-D9)0730090
- Printer cable0730029

Sales package code

PKD-1 SW Security Device

SW security device is a piece of hardware enabling the use of the service software when connected to the parallel (LPT) port of the PC. Without the dongle present it is not possible to use the service software. Printer or any such device can be connected to the PC through the dongle if needed.

Caution: Make sure that you have s witched off the PC and the printer before making connections!

Caution: Do not connect the PKD-1 to the serial port. You may damage your PKD-1!
